

## KEY FEATURES

- For use in exposed & underground applications
- Available in more than twenty (20) sizes
- Resists extreme temperature fluctuations
- Installs in seconds, no special tools required

*Reducer Bushing*

*Swedged Reducer*

## Reducer Bushings to handle transition from different size conduits in the field

Our simple and easy to install Reducer Bushings and Swedged Reducers create uninterrupted transitions from medium to small sized conduits. They are available for PVC conduits ranging from  $\frac{3}{4}$ " (20mm) to 4" (100mm).

The Reducer Bushings connect different sizes of conduits for general purpose applications. While our Swedged Reducers are available as Male Spigot x Male Spigot, IPS Socket x IPS Socket, and IPS Socket to Male Spigot Combo.

Molded fittings offer superior lot-to-lot consistency, a smooth interior wall, and a durable, warp resistant design that making installation simple.
