

KEY FEATURES

- Tapered and scalloped walls for a tight and secure fit
- Easy installation and removal without additional tools
- Cost-effective solution for temporary sealing
- Highly flexible material for easy installation by hand
- Constructed of long-lasting material
- Designed to release in a snap
- One size to fit multiple-size conduit

Highly flexible material for easy installation by hand

Poly Plug[™]
Temporary Plugs

The Poly Plug snap-in design protects exposed conduits and innerducts with ease

The Poly Plug[™] is designed to seal standard ducts, innerducts or terminators from the damaging and expensive effects of weather, job site debris, and animal incursion.

The tapered fit ensures an easy and snug installation, while the scalloped ridges create a snap-in seal to prevent accidental dislodging of the plug. The base of the plug features a sturdy flanged lip to easily remove the plug. All Poly Plugs have a designed-in rope-tie making mule tape or other line easy to tie-off and readily at-hand for future use.

Molded from Low Density Polyethylene (LDPE), a semi-pliable, high-impact, and chemically inert resin that has near-zero moisture absorption properties. LDPE is resistant to ultraviolet light, ozone, and is capable of withstanding extreme fluctuations in temperature.

SPECIFICATIONS

Simply push the Poly Plug™ into the conduit for a tight and secure temporary seal.

PRODUCT NUMBER	EACH SIZE (mm)	CASE QUANTITY	UNIT OF MEASURE	CASE DIMENSIONS (cm)	COLOR
2250-010	25	100	CASE	27.9 x 22.9 x 12.7	BLACK
2250-012	32	100	CASE	33.0 x 22.9 x 12.7	BLACK
2250-015	40	100	CASE	33.0 x 22.9 x 17.8	BLACK
