

KEY FEATURES

- Made from durable materials that can withstand high temperatures and pressures
- Transparent design allows for easy visual inspection during installation
- Different coupler sizes are color-coded for easy identification
- Provides a secure and tight fit for reliable connectivity
- Can be easily connected and disconnected without the need for any tools
- Suitable for use in the field for fast and efficient installations

Microduct Straight Couplers

Microduct straight couplers for a secure hold

The microduct straight coupler is a reliable solution for connecting microduct quickly and securely without the need for specialized tools. It is an ideal product for telecom, datacenters, and fiber optic applications, where the installation of microduct is a common requirement.

The easy-to-use microduct straight coupler is designed for fast installation and a secure hold for microduct. Connect two same-sized microduct with the same outer diameter into the coupler until they click securely. The transparent polycarbonate aids in visual confirmation when secure on each end. The press-fit design in the coupler ensures a tight and secure connection with the microduct. This helps to prevent any accidental disconnections or leaks. Additionally, the coupler is equipped with a quick-release feature, allowing for easy and fast removal when needed. This simplifies the maintenance and repair process, saving time and effort.

Overall, the microduct straight coupler is a must-have tool for professionals who frequently work with microduct. The specific engineering design and excellent durability make it a smart choice for any project that involves the installation of microduct.

SPECIFICATIONS

PRODUCT NUMBER	MICRODUCT SIZE	LENGTH	BAG QUANTITY	PER BAG WEIGHT	MINIMUM ORDER QUANTITY	COLOR
3150-080	8.5/6mm	47mm	50	0.5kg	1 Bag	Cal Am Blue
3150-100	10/8mm	47mm	50	0.5kg	1 Bag	Cal Am Blue
